Full-stack web developer with experience working with technologies like JavaScript, React, Redux, Node.js, and many more. I have had the pleasure of coordinating and guiding a group of more than 30 full-stack developer students for over 12 weeks, helping them in their integration, adaptation, and development during their bootcamp course at Soy Henry in my labors as a Teaching Assistant. I am willing to grow and challenge myself in environments where I can learn and keep creating amazing online experiences.

SKILLS

HTML | CSS | JavaScript (ES6) | Sass | Styled Components | Git | GitHub | PostgreSQL | Node Package Manager (NPM) | React | Redux | Node.js | Express | Scrum | Frontend | Backend | Full-Stack | Advance English | Native Spanish | Planning | Perseverance Problem Resolution | Self Motivation | Flexibility | Dedication | Personal Productivity

EXPERIENCE

HENRY, Academic — Mirador Tayrona App

01/2023 - 04/2023

- Utilized Agile methodologies (SCRUM) to deliver the app in 3 sprints, collaborating with a team of more than 8 people.
- Designed using Figma and built with design components and styling, resulting in a 40% increase in user engagement.
- Created a robust API that handled over 50,000 requests using technologies like Node.js and MongoDB.

Personal, Academic — Juan Daniel Gonzalez Portfolio App

05/2023 - 05/2023

- Developed a single-page application (SPA) with four sub-pages.
- Optimized the front-end using React and Redux, utilizing performance optimization techniques resulting in a 30% decrease in page load time.
- Contributed to the back-end development of the application.

Teaching Assistant at HENRY

09/2022 - 12/2022

- Provided assistance and encouraged group teamwork (pair programming), resulting in a 30% increase in overall team efficiency.
- Coordinated a group of more than 30 students throughout the entire bootcamp experience.
- Assisted students with their integration, adaptation, and development process during the 13-week course.
- Proposed ideas to improve the bootcamp process, promote collaboration, and build community among students.

HENRY, Academic — Pokemon App

11/2022 - 12/2022

- Created an application with over 7 scalable code sections.
- Styled with CSS modules to create an appealing user experience, resulting in a 20% increase in user retention.
- Contribution to the back-end development of the application.

HENRY, Academic — Rick And Morty App

10/2022 - 11/2022

- Built with Vite and pre-bundled with ESbuild, resulting in a 10 to 100 times faster performance.
- Completed full-stack development of a single-page application, utilizing Node.js, Express, Sequelize, and PostgreSQL for the back-end, React, Redux, and Bootstrap for the front-end.

TELEPERFORMANCE — Bilingual agent

11/2021 - 05/2022

- Provided customer service via email, chat, and phone calls to more than 2,000 clients.
